ABOUT THE PROGRAM

Our Advanced Business Analytics Training Program is designed to equip business professionals and analysts with the skills they need to extract actionable insights from data and drive transformative change within their organizations.

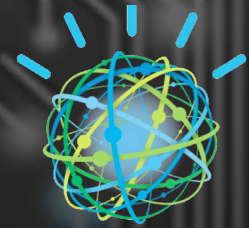

This intensive and advanced program will provide you with a comprehensive understanding of advanced data analysis techniques, predictive modeling, and data-driven decision-making strategies. You will gain hands-on experience with the latest tools and methodologies, enabling you to uncover hidden patterns and trends in data.

Empower yourself with the skills to become a data-driven leader and make a transformative impact on your organization.

KEY TOOLS

Power BI

IBM.WATSON

WEKA

MODULES

BUSINESS INTELLIGENCE TOOLS

- **TABLEAU:** A popular tool for creating interactive and shareable dashboards.
- **POWER BI:** Microsoft's data visualization tool for business intelligence.

DATA VISUALIZATION TOOLS

- **R:** A language specifically designed for statistics and data analysis, with a wide range of packages like ggplot2 and dplyr.
- **SPSS:** Software for statistical analysis and modeling.
- **SAS:** A suite of software solutions for advanced analytics, business intelligence, and data management.

ETL TOOLS

- **Amazon Redshift:** A data warehousing service for running complex queries on large datasets.
- **Google BigQuery:** A serverless, highly scalable data warehousing solution.

PREDICTIVE ANALYTICS TOOLS

- **IBM Watson Analytics:** A tool that combines predictive analytics with AI capabilities.
- **Alteryx:** A platform for data blending, advanced analytics, and predictive modeling.

DASHBOARD AND REPORTING TOOLS

- **Domo:** A cloud-based platform for creating interactive dashboards and reports.
- **Looker:** A data exploration and business intelligence tool.

DATA MINING TOOLS

- **RapidMiner:** An integrated data science platform with machine learning and data mining capabilities.
- **Weka:** A collection of machine learning algorithms for data mining tasks.

TEXT AND SENTIMENT ANALYSIS TOOLS

- **MonkeyLearn:** A text analysis tool for extracting insights from unstructured text data.
- **Lexalytics:** A text and sentiment analysis software.

MARKET RESEARCH AND SURVEY TOOLS

- **SurveyMonkey:** An online survey and market research tool.
